SUMMARY

A highly motivated BEng Electrical Engineer graduate. During my time learning, I have gained insight in Integrated Engineering Design, Electrical Machines, and Embedded Systems. Eager to utilise my knowledge gained from my time in university and apply my understanding of engineering theory to join an organisation and gain experience through challenges and opportunities to grow.

WORK EXPERIENCE

Tesco

Customer Assistant

North Berwick, EL

September 2018 – 2022

- Assisting and serving customers, using my product knowledge to anticipate and meet their requirements.
- Working and collaborating in a team environment to consistently meet targets and ensure the quality of work is up to standards to meet the customers satisfaction.
- Stock management of the displayed products and completing all given tasks accordingly.
- Capable of working in a fast-paced environment and facing challenges and overcoming such problems as demonstrated during the Covid pandemic.
- Built a rapport with customers and resolved complaints.
- Responsible for training new team members in learning key competencies and guidelines.
